MEASURING INSTRUCTIONS

Read the guidelines below and then compare your measurements to the above size guide. For the best fit, wear little or no clothing while measuring, and use a fabric tape measure.

Bust: Wrap the tape around the fullest part of your bust, then drop your arms to your sides to measure.

Waist: Measure around your natural waistline, keeping the tape comfortably loose.

Hips: Stand with your heels together, and measure around the widest part of your hips – this should measure 18cm below your waist.
